<p>Sequence Workshop</p> <p>47 Maximum Points</p>	<p>Sequence Workshop Guidelines:</p> <ul style="list-style-type: none"> All members of the Elite Team who are age eligible will have the opportunity to show two sequences on all 6 events at BOTH Region 6 Elite Team Sequence Workshops Athletes have TWO attempts on each event to show their sequence. If they hit their first sequence and do not want to do a second one, they are not required to do so. Only one sequence in a workshop will be counted. There will be two sequence workshops, although top event points from only ONE of the workshops will be counted (see point system below). <p>Sequence Workshop Event Guidelines:</p> <ol style="list-style-type: none"> 1. <u>Pommels, rings, p-bars, high bar</u> <ul style="list-style-type: none"> Each athlete will salute and show minimum of a 3 skill sequence. Athletes can do more than 3 skills in 1 sequence but will only get credit for the 3-highest valued skills W/O a single large deduction. <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> <p>Example: On high bar, gymnast does Yamawaki, Kovacs, Jam ½ handstand, Endo, double-double dismount. During the sequence, Yamawaki has a single large error, and the rest is clean and full credit. So it would be no credit for Yamawaki, credit for Kovacs since it's highest skill, then Tak and dismount.</p> </div>

- Points would be value of each skill (plus any J.O. AND F.I.G bonus) in the sequence. Value of the above sequence is: Kovacs (0.4), Tak (0.4 + 0.2 bonus) & dismount (0.5) = 1.5 total value
- If they fall on the 2nd or 3rd skill of a sequence, no credit for anything. They must complete 3 skills without a large deduction on each skill to get any points.

2. Vault

- Athletes will perform 1 vault if it is higher than 5.0. They can perform 2nd bonus vault if less than 5.0. Follow vault table rules sets forth in J.O. manual. Example: athlete does a Kaz 1 ½ without single large error (5.2 value + 0.6 bonus)= 5.8 points
- Divide the total difficulty by 3 to make it comparable to other sequence values). Example (5.8 / 3 = 1.93 total points)

3. Floor

- 3 floor passes will be evaluated toward the sequence. These can be combination passes (with F.I.G. bonus), single element passes (with J.O. bonus), or ONE non-acro element and two floor passes.

Example of 3 Floor Sequences:

Pass # 1- Back 1 1/2 punch Front Double Full (C + D + (0.1 bonus) = 0.8
 Pass # 2- double layout (D + 0.2 bonus) = 0.6
 Pass #3- triple Russian (C) = 0.3
 Total Floor Value: **1.7**
